Athletics ACT - Emerging Athlete Program (EAP)

Athletics ACT is excited to be running a new state-based development program in season 2020/21 to better identify and develop the young, emerging athletic talent in our region. The program will bring together athletes who have shown performance potential in ACT schools competition and athletes from other sports that may show an aptitude to perform strongly as T+F athletes.

By identifying and engaging ACT's best junior athletes and coaches through development and education opportunities, the EAP aims to encourage athletes and coaches to achieve their potential in athletics and in their other chosen sports:

- be the early identification element of the ACT performance pathway, and

- motivate and improve the best young athletes in each state through coach led training and education session by inviting them to be part of a state level development squad
